

CABINOTCH **WÜRTH WOOD GROUP**

You Decide, We Deliver

A notch above the rest.

Cabinotch® is an award-winning company that developed an innovative system for assembling face-framed cabinet boxes that feature American-made, formaldehyde-free PureBond® hardwood plywood.

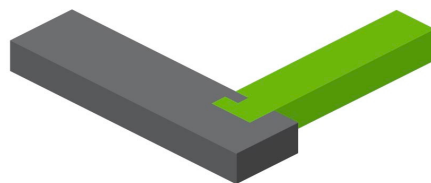

The Cabinotch cabinet box system, which involves a patented interlocking joint, has been shown to help cabinet shops reduce costs and improve productivity. Our customers report that it helps minimize low-profit hours spent at the table saw in favor of time spent designing, selling, finishing and adding value to their cabinet projects.

Cabinotch delivers a top-quality, all-wood, "cabinet chassis" - including the face frame, sides, backs, bottoms, tops and shelves - that you, the craftsman, can finish and assemble. We'll provide the box parts that are a snap to assemble. You complete the cabinet with your doors, drawers, finishes and hardware.
