

THE COROB DIFFERENCE

WURTH WOOD GROUP

OVERVIEW

For 25 years,  **WÜRTH** and  have partnered to deliver our customers the broadest range of wood coatings and supporting services available to our industry. We are joining together once again to bring on a new partner that will help **Wurth Wood Group** and **M.L. Campbell** raise the bar and establish a new standard in the industry as it pertains to color development and color reproduction for the custom woodworker. Introducing, **Corob.**

A rich and full history of product development has been the distinguishing sign of an active approach with customers, and, at the same time the testimony of intense research brought ahead by Corob's Research & Development team and Wurth's product management team. Vision and bright ideas have characterized the past 25 years for Wurth and M.L. Campbell. Wurth is excited to partner with COROB to take another innovative step with you, our customer, in re-defining color development in the wood-working industry.

COROB DIFFERENCE

The COROB™ D800's modular approach accommodates the most complicated colorant systems and satisfies the most challenging productivity requirements using state of the art electronics.

- High Speed- fully simultaneous and precise colorant dispenses
- Large Roll Conveyor for ergonomic can handling
- Precise color repeatability
- Outstanding quality and reliability

INDUSTRY STANDARD

Inaccurate Dispensing

Result: Inconsistencies in color batch to batch.

Limitations With Micro-Dispenses

Result: Difficulties with creating and or repeating challenging colors i.e.; off whites and lighter shades of gray.

Less Precise Calculation

Result: Reproducing retained formulas and accurately repeating color becomes nearly impossible.

Inefficient Manual Operation

Result: Decrease in tint room productivity creating longer lead times for color production.

Manual Processing

Result: Inaccurate formula retention, inaccurate manual dispenses.

COROB RESULTS

Precise Dispensing to 1/384th oz. Calibration -

Repeatability and color consistency with all colorant dispenses even with the most challenging colors: grays and off whites.

Simultaneous / High Speed Dispensing -

Increased productivity, decreased lead time, less time wasted

Larger Roll Conveyer -

Enables multiple gallon set up for tinting at machine site. Makes tint specialist more productive.

Automatic Programmable Stirring And Recirculation of Colorants -

Eliminates air entrapment and potential "falling out" and separation of solids and solvent.

Automatic Nozzle Capping System -

Keep nozzles free and clear of dried colorant and eliminates likelihood of mistints due to insoluble pigments.

Corob Auto Tinter Driven by Advanced Color Development Software -

Fast formula retrieval for re-tints, fast formula entry method. Eliminates paper and hand-written records.

Spectrophotometer -

"Color Eye"- Accurately reads various color samples and communicates a recommended formula directly to the COROB dispenser to produce custom colors.

EVERYTIME

The COROB™ D800 is the ultimate dispensing solution where high paint volumes are tinted, providing total flexibility and excellent color performance.
