Threads

Fine for general woodworking use primarily with hardwood - requires pre-drilling and pre-countersinking

Coarse for soft wood, MDF and particle board - best results require pre-drilling and countersinking

HI-LO multi-purpose thread designed for greater holding and less strip-out in all woods

Turbo serrated thread outperforms Type 17 fasteners, reduces splitting - virtually eliminates pre-drilling/countersinking

Twinfast twin lead screw primarily used in hardwoods

Machine Screws M4/8-32 for attaching decorative hardware

ASSY® PLUS patented Asymmetrical/Symmetrical plus a drill bit cutter head for clean, fast, non-splitting drive into all woods and near edges
